

## Learn About Therapy Dogs **NEW**

*Jenny Langness*

Have you ever wondered what a therapy dog does? Perhaps you've seen or heard about dogs visiting schools, hospitals, nursing homes, etc. Science has shown us how beneficial therapy dogs can be. Visits from a therapy dog can lower blood pressure and heart rate, reduce patient anxiety, and increase levels of endorphins and oxytocin. *JENNY LANGNESS has been working with therapy dogs for over ten years. Earl and Albert, her dogs, accompany her to area clinics/hospitals/hospice, senior living facilities, and area schools. Offered in partnership with Prescott Community Ed. Address: 1220 St. Croix Tr - Enter through door #5 on the football field side of the school.*
