## Parent Involvement

Parent involvement is an integral part of a school-aged child care program. We feel that by providing a quality child care program that supports and cooperates with the parents we can be a part of a program that helps a child develop to their fullest potential.

We encourage parents to become part of our program by visiting our program, volunteering when possible, or consulting with us on their child's progress.

There are several ways in which you as a parent can help:

1. Share special skills and interests with the children
2. Share art materials and any other recycled materials.
3. Repair and construct equipment.
4. Donate equipment, toys, book, games, and dress-up clothes.

# Student Medication Regulation

The following is a summary of School District #200 regulations on giving medication to students.

1. Diagnosis and treatment of illness and the prescribing of drugs, medications and nostrums are not the responsibility of school personnel.
2. School personnel will not provide students with aspirin or any other medication.
3. Medications will be given only to students with long term chronic illness or disability where failure to take prescribed medications could jeopardize the child's health. These medications will be given only upon the written order of the physician and the parent's written request. The medication is to be brought in school in bottles containing the child's name, the pharmacy, the name of the physician and dosage of the medication to be given. The medication is to be given to the Kids' Campus lead instructor.
4. Students with short term illnesses requiring medication should be kept home until they are well.
5. Parents are encouraged to call the Community Education Office if they have any questions regarding the students' medication procedures.

# Discipline Procedures

## METHODS OF DISCIPLINE

Children will have a clear understanding of the authority and rules of the Child Care Program. Children will be helped to understand their responsibility to the other children, staff and environment.

The staff will model expected behavior. When negative behavior occurs the staff will attempt to redirect the child's behavior, while praising the positive. If a child's behavior remains disruptive, the parents will be notified of the behavior and the disciplinary procedure will be enacted.

## Illnesses & Absences

### WHEN YOUR CHILD SHOULD BE KEPT HOME FROM SCHOOL/KIDS' CAMPUS

If your child has a cough, headache, sore throat, earache, swollen glands, rashes or soars, nausea, vomiting, diarrhea, or general signs of illnesses, please keep them home. Also, parents are requested to report any cases of contagious diseases to the lead instructor as soon as possible, and to watch all the children in the home when there is contagion. Exclude from school/program when first symptoms of illness appear.

If your child should become ill in school during the regular school day, the school nurse or the secretary will contact the parent. Parents please call Kids' Campus to let staff know your child will not be attending; the school does not notify us. If your child should become ill while they are attending Kids Campus, the staff will contact the parent and the parent will be required to come and get the child. The child will not be released from school to walk home (if this is necessary) until it has been determined that someone will be home.

If your child will not attend Kids Campus because of illness or any type of absence, please call your child(ren)'s Kids Campus Site. The school does not call to notify us.
