

Medication Procedure

FALL 2020

Hastings Community Education 8.13.2020

Prescription Medications

Please see the following District 200 guidance regarding medication administration.

Students attending childcare MUST have their medication at each site they attend. We are unable to move medications between sites and unable to access nurse's station medication.

The following is a summary of School District #200 regulation concerning giving medication to students:

1. Diagnosis and treatment of illness and the prescribing of medications are not the responsibility of school personnel.
2. School personnel will NOT provide students with Tylenol or any other medication.
3. Medication will be given only to students with long term chronic illness or disability where failure to take prescribed medication could jeopardize the child's health. The medication will be given ONLY upon the written order of the physician and the parents' written request. Medication is to be brought to the school in bottles containing the child's name, pharmacy, physician, and dosage. The medication form MUST accompany the medication.
4. Students with short term illnesses requiring medication should stay home until they are well.
5. Parents are encouraged to call the Community Education office if they have questions regarding the student medication process.
