Afternoon	Section 4		Section 4		Section 4
	Section 8	Section 8	Section 8	Section 8	Section 8

The Tilden Community Preschool program provides a variety of experiences that contribute to the growth and development of the preschool child and serve as a foundation for later school experiences. These programs recognize that:

- Each child is a unique individual and develops at his or her own rate.
- Parents are a child's first and most important teachers.
- Play is a child's work and is seen as a productive avenue for learning.
- A group experience fosters independence, builds self-confidence, and develops self-identity outside of the child's role in his or her family.
- Early literacy skills are the basis of success in reading.

All Tilden Community Preschool classes include children with identified special needs as well as typically developing children.

Activity and experience involving "hands on" participation is the basis for our preschool curriculum.

Class Size: Maximum class size is 20 students. Adult to student ratio is 1 to 10.

Staff: Our state department of education licensed teachers and experienced classroom aides meet or exceed state requirements for this type of program.

Curriculum: Research-based and centered on cognition, language, social-emotional and physical development.

Bussing: Transportation available for ALL morning classes!
