

# Preschool

Conducted at the Tilden Community Center, 310 River St.

*Still time to register!*

The Tilden Community Preschool Program provides a variety of experiences that contribute to the growth and development of the preschool child and serve as a foundation for later school experiences. These programs recognize that:

- Each child is a unique individual and develops at his or her own rate.
- Parents are a child's first and most important teachers.
- Play is a child's work and is seen as a productive avenue for learning.
- A group experience fosters independence, builds self-confidence, and develops self-identity outside of the child's role in his or her family.
- Early literacy skills are the basis of success in reading.
